PROJECTS

Completed the **UX/UI Development** project, which involved creating a mobile application for mental health tracking. The app uses AI-powered sentiment analysis to provide users with personalized coping strategies based on their mood.

TECHNICAL SKILLS

- **Design Tools:** Adobe Photoshop, Sketch, Figma, Axure, InVision.
- **Front-end:** React.js, Vue.js, Angular, Node.js, CSS, HTML, JavaScript.
- **Analytics:** Google Analytics, Mixpanel, Amplitude.
- **Prototyping:** Adobe XD, Balsamiq, Sketch.
- **Research:** Qualitative research methods (ethnography), user-centered design, A/B testing.

PERSONAL SKILLS

- **Communication:** Excellent communication skills, both written and verbal.
- **Problem Solving:** Strong analytical thinking and problem-solving abilities.
- **Teamwork:** Collaborative and able to work effectively in a team.
- **Adaptability:** Quick learner, able to adapt to new environments and technologies.

WORK EXPERIENCE

- **UX Designer at Acme Solutions:** Developed user personas and conducted user research to inform the design process. Created wireframes and prototypes for various features.

ACHIEVEMENTS

- **Excellence in soft skills:** Demonstrated strong communication, teamwork, and presentation skills throughout the program.
